

JOLIE Parra

Im planning on double majoring in marketing and management and graduating in the spring of 2027. Once I graduate I want to become a manager at the place I work now to gain some experience and then be able to manage a different company. I also want to open my own business.

I use Microsoft Word a lot, and right now in my accounting class I've been working with Excel as well. I know I could definitely improve my skills, since I don't fully understand what every button or feature does yet.

I chose UNR because I'm from Reno, and staying close to home allows me to be with my family. I have an eight-year-old little sister and a small dog, and I wasn't ready to move away and leave them just yet. In my free time, I enjoy hiking, taking drives up to Tahoe, thrifting, listening to music, and watching movies. My favorite music is a mix of country and early 2000s rap, and my all-time favorite movie is Love, Rosie
